

Fire Safety Alert
As the year end approaches, it's time to check those fire alarm batteries.

Happy Holidays to all from your Firewise Committee!

During the holiday season the possibility of electrical fire increases with the installation of the annual holiday decorations. Before installing those beautiful lights, it's time to carefully check the cords of all your decorations for any kinks, cuts or shorts caused by use and storing them for the year. If in doubt, don't put them out.

Did you know it is recommended to test your fire alarms monthly? Let's be real, since we can't easily reach them, often this suggestion is ignored. But we can, at least, change those batteries twice a year. While that ladder or step stool is out to decorate, it's the perfect time to tackle this chore.

JUST DO IT!
