

Firewise Semi-Annual Hazard Review

This Friday & Saturday, Nov. 18-19

Aloha, Kohala by the Sea owners! Please be aware that Firewise Committee members will be reviewing all lots for safety hazards **this Friday and Saturday, November 18-19**, starting at 10:30 a.m. Friday and 9 a.m. Saturday, for approximately 90 minutes each day. We will be parking one car at various sites on the street, where most inspections take place, but may walk on vacant lots or closer to unoccupied homes as needed.

Please see the survey list at right to see which community wildfire hazards we are trying to eliminate, with your help. If your home has a large, un-landscaped area that is not easily viewed from your house, please check it for these hazards and remove them as soon as possible; this will also help reduce the number of follow-up emails our committee has to send. We are happy to provide contacts for gardeners and contractors if you need assistance, or lend tools for smaller jobs. Mahalo!

Survey Checklist

- No haole koa (freestanding or in other shrubbery)
- Tree branches pruned 6 to 8 feet above fountain grass
- Dead branches trimmed and dead palm fronds removed
- No brushpiles
- No foliage touching wooden roofs

Brought to you by the Kohala by the Sea Firewise Committee
